Join us for season 12 of our Expert Briefings, webinars designed for people living with Parkinson's disease, care partners and health professionals. In this season, we focus on two critical themes of interest to our community: Young Onset Parkinson's and Symptom Management. Register and join us live as we listen to experts in the field and people living with Parkinson's at Parkinson.org/ExpertBriefings.

Qualifying health professionals who participate within 30 days of each live webinar may be eligible for free Continuing Education Units through the Foundation's sponsorship of the American Society on Aging.
