Parkinson’s Foundation

Postdoctoral Research Fellowships

Application Instructions

Thank you for your interest in the Parkinson’s Foundation’s Postdoctoral Research Fellowships for Basic Scientists and for Neurologists. The application process is divided into two parts. First, applicants are invited to submit a Letter of Intent (LOI). Based on favorable peer-review of the LOI, applicants will next be invited to submit a full application.

All applications must be submitted online through the Parkinson’s Foundation web site at: grants.parkinson.org; no paper copies will be accepted.

Online Submission
After registering on our online grants system, you may submit your application. Please check the Parkinson’s Foundation website for when the application period opens and closes. You will be asked to provide the following information and upload the following documents:

Part A. Letter of Intent

Contact Information
- Project title.
- Type and amount of funding requested.
- Applicant’s contact information (Name, degree, phone, email, and institution).
- Mentor’s contact information (same as above).

Biosketches
- Upload biosketches for yourself and your mentor. Please follow the current NIH format. As a reminder, please list only publications that are relevant to the grant to which you are applying. For an example, also see:
  ○ http://grants.nih.gov/grants/funding/424/applicant-fellowbiosketchsample.doc

Letter of Intent
- Describe the proposal and its relevance to Parkinson’s disease in a concise and straightforward manner including your hypothesis, aims and how you plan to achieve them, expected outcomes and relevance to the field. (max 4000 characters, about 500 words).

Keywords
- Select up to four descriptive keywords. If there are not any keywords that accurately describe your research, you can add your own if necessary. Please note that reviewers will be selected largely based on the choice of keywords.
Part B. Full Application – Invitation Only
If selected to proceed with a full application, applicants will be notified by email and given access to move forward with the next steps in the online application system.

Administrative Information
• Administrative/Institutional contact information (Name, phone, email, and address of Official to be notified if award is made).
• Upload Administrative Signature Page (download a MS Word version from the online grant application page).

Grant Information
• Briefly list Current, Pending and Previous funding (including support by the Parkinson’s Foundation).
• Project Abstract describing the proposal and its relevance to Parkinson’s disease in a concise and straightforward manner that is directed to the general scientist (max 1100 characters, including spaces). The abstract of funded applications will be posted on the Foundation website.
• Review your selected keywords.
• Upload the proposal package.

Proposal
• Proposal (7 pages max).
• Literature cited (1 page max).
• Single document

Use the following guidelines for organizing and formatting each part of the proposal:

Page 1:
• Abstract (max 150 words).
• Highlights - 3-4 bullet points highlighting the potential impact on PD research and/or patient communities (max 85 characters each).
• Lay summary

Pages 2-7:
• Specific aims.
• Background of proposed study and relevance to PD.
• Details of proposed experiment, including methods.

Proposal Formatting:
• Font: Must be 12 pt Times or equivalent (≤15 characters per inch). Use symbol font (e.g., Greek letters) where necessary.
• Spacing: Maximum of 15 characters per inch and maximum 6 lines per inch (i.e. single spacing).
• Page: Page size must be 8.5” x 11” with a minimum of 0.5” margins on all sides.
• Figures: May be included as part of text or at end. A descriptive legend with a minimum font size of 10 pt Times or equivalent.

Literature cited:
• Font: Minimum of 10-point Times or equivalent.
• List references alphabetically by first author.
