

Community Partners in Parkinson's Care Criteria

Community Partners in Parkinson's Care must:

- Provide care in a care community or home care setting
- Designate at least two Site Champions to:
 - Attend a 2-day virtual training with online pre-requisites.
 - Use the provided materials and content to train at least 70% of the staff at their care community or home care agency.
 - Complete two digital semi-annual reports and two digital annual medication audits using Electronic Health Records to track Parkinson's medication distribution.
 - Allow and encourage people with Parkinson's in the care community or home care agency to complete two yearly evaluations, to be provided by the Parkinson's Foundation and given out by the agency for private completion by the patient and/or care partner. A stamped and addressed envelope will be provided for the patient to return the evaluation directly.
- Maintain 70% of the staff as trained through incorporation of PD education into new staff orientation and training within the first six months of membership.
- Pay an annual fee of \$2,500.

If your care community or home care agency is interested in an in-person training, please contact communitypartners@parkinson.org to discuss this process and expectation.
